Ms. Jill Stanislowsky
U. S. Environmental Protection Agency
Region 4, Sites Notification
345 Courtland Street
Atlanta, Georgia 30308

Dear Ms. Stanislowsky:

Pursuant to conversation between you and Dr. Rick Garrity, City of Tampa Environmental Coordinator, I am submitting EPA Form 8900-1 "Notification of Hazardous Waste Site".

Only one of our thirty-seven old landfills is suspected of ever having been used to dispose of a toxic material and at that landfill only one instance has ever been reported. It is our understanding however that any landfills which have ever accepted any commercial waste should be reported to you.

If you have any further questions regarding this information please contact me at 223-8337.

Sincerely,

R. D. Fierro,
Deputy Director

MANHATTAN LANDFILL

MAC DILL AFB

APPENDIX B

Certain toxic materials may have been disposed of at a Port Tampa landfill in the S.W. corner of Manhattan and Richardson. The incident supposedly occurred about five years ago and was reported by a former employee of the Shuron Continental Optical Company (this company is no longer located in Tampa) and supposedly consisted of the disposal of waste cyanides in an acid pot. The cyanides were originally used in a metal hardening process. The site of burial has been at least broadly determined (see attached map) and is at least 737 feet from any residences.
